**LATEST STUDENT VISITORS** — This group of kindergartners, pupils at Mrs. Hubert's School, glance up during a tour of Cameron Public Library. They are the last of more than 2,000 Cameron public, parochial

and private school students to visit, by class, the new facility in the past six months. At right is Mrs. Robert Tumlinson, teaching assistant. An equal number of new books is being added at Cameron Public Library.

## 108

With F.M.L.

"Will you drop me off?" says wife Jan as we leave the front office for the car.

"What CLIFF-4-4?" joshes 108.

108-108-108

Beside this traditional man-wife exchange we gained a columnar year this week.

So the name's changed to 108, meaning, of course, The Herald is 108 years young with this issue.

Jan and I have counted 10 of those years ourselves, among at least 50 managements since 1857 and the original masthead title, Cameron Centinel.

It may be repetitious, but we mention again that we have a receipt acknowledging the sale of two, nine-month subscriptions, \$2 each, to the Centinel in The Herald office. It is dated April 15, 1961.

So your annual subscription, considering historic inflation, based on that early figure, might be \$10 or \$12 a year, instead of the meagre \$3.50 or \$4 you pay, either within Milam or outside Milam trade territory.

108-108-108

We might mention here, as is mentioned editorially, the flattery derived, though perhaps not meant, from receiving letters from three major cities, Cameron, and a metropolitan newspaper in one day.

Maybe the idea of editing a country paper city style is gathering some momentum. The stone's been rolling for 108 years, so it ought to be doing something.

One thing is certain. The pro and con sides of a question don't smirk anymore about most Herald coverage, though they might wince a bit.

108-108-108

One of the best things to develop in our 108 years here is lessening influence of "street talk" in the running of public institutions.

"Street talk" used to appear as if it had some magic power in Cameron. It was, and anytime, is gossip, misinformation or worse.

Public opinion which has a source is one thing. Gossip, which has none, is another. Schools, counties, cities and any public body respond to the former, but suffer from the latter.

A town is like a person. It is no better than its weakest member.

For our frail part of 108 years, we have tried to make some trite come true.

### BOTH ARMS BROKEN

## Sgt. Sapp Wins Air Medal

TechSgt. John B. Sapp was awarded an air medal by President Lyndon Johnson at Andersen Air Force Base on Guam.

News of the award for his son was learned by Mr. and Mrs. J. B. Sapp, 611 West Second, Cameron, when their daughter-in-law called from her home in Orlando, Fla.

The Air Force sergeant, a native of Minerva, is 33.

The President awarded Air Medals to 12 men who fly B-52 stratofortresses, bombing enemy bases in Vietnam and the men who fly the jet tankers that refuel the big jet bombers in flight.

The awards were made by the President shortly before he returned to the United States following peace talks on Guam.

Sapp, a gunner, has been flying the B-52's for the past two years. He has been in Guam for six

months which will earn him a hero's welcome at his home in Florida next week. "The flying duty is so strenuous and dangerous that B-52 flight crews are relieved after six months in Guam."

Sapp, a retired employee of Lone Star Gas Company, and his wife are proud of their son. He attended

high school in Rockdale where he was active in FFA and was a three-year football letterman. He joined the service shortly after graduation in 1951 and was awarded his crewman's wings in the Air Force before he was 18.

His parents have lived in Cameron since 1932. The family, including Sapp's sisters and families, enjoyed a reunion in Cameron late last summer before he was sent to Guam. They hope to have another after his return to the United States.

His wife, the former Barbara Harrison of Michigan, and their two daughters, Terry, 12, and Robbie, 10, live in Orlando.

## Yoe Wins Second In Falls Relays

Cameron finished second Saturday in the Falls Relays with 57 points and was just one place from winning the team event won by Teague at 59 points.

YHS miller Paul Chandler won the mile run in 4:58, a slow time for him, but he was not pushed to bring the winning time down. And he ran an 880 in the sprint medley relay that finished second.

Leo Michalka won the 440 yard dash in 51.5, ran the 440-yard leg of the Medley Relays and the anchor leg of the Mile Relay. He ran four 440's during the day, the fourth being a preliminary 440 dash qualifying for the finals in 53 seconds.

Glen Fogle tied for second in the high hurdles with a 15.5, and won a third in the discus.

Wayne Kirk and Bill Goeke join-

ed Michalka and Chandler in the Medley Relay, finishing second. Goeke also ran a quarter mile in the mile relay event.

At one point, reports Coach Ken Fuqua, a higher place in the mile relay event would have put Cameron in the team winner's slot.

Cameron won the team championship last year with 102 points with Mack McKinney pacing the field.

Vernon Guest, of Rockdale, was high point man this year in the Falls Relays. He won the 100, 220 and placed sixth in the broad jump. With a 4th place share in the sprint relay, he ran up a total of 23 points.

Cameron's mile relay team ran a 3:38.6 and the sprint medley relay ran a 3:49.2.

JUNIOR BROILER PROGRAM STARTS FRIDAY FOR 60

Milam County's Junior Broiler Program begins Friday, March 24 when some 60 sponsors will present baby chicks to young contestants.

The chicks will be presented to growers at 4 p.m. Friday at the courthouse. This will be the 15th consecutive broiler program conducted by the Cameron Chamber of Commerce for Milam County youth.

Each grower, qualified by his or her membership in the County 4-H or school FFA chapters, will receive fifty baby chicks from their sponsor. The chicks are raised according to FFA and 4-H specifications for an 8 week period and the best broilers in the flock are selected for judging. Awards are presented at a banquet for sponsors and growers in May.

Fred W. Hornung is 1967 Broiler contest chairman and Leo Fuich is general chairman of the program Chamber committee.

**Houston Youths Race In Stolen Car Ends With Fatal Wreck**

A speeding car carrying two youths overturned six times just inside the Milam County line on Highway 36 west of Cameron late Sunday night.

Offo Willis Miller, a 14-year-old Houston boy, died in a Temple hospital about 3 a.m. Monday from injuries suffered in the wreck. His companion, Steven Hill, 13, was also taken to a Temple hospital in critical condition with head and internal injuries.

The boys had escaped from the State School for Boys in Gatesville about 9 p.m. Sunday and were driving a car stolen from an employee of the state school.

Highway Patrolman Hollie Tull spotted the stolen car about 10:30 p.m. Sunday and when the boys failed to stop, gave chase at speeds up to 110 miles per hour before the car went out of control on a curve south of Rogers.

Tull had radioed ahead to Highway Patrolman Leroy Broadus in Cameron who arrived minutes after the crash.

A Green Funeral Home ambulance took the boys to Temple. Both had been thrown from the overturned car.

**57 SIGNATURES DISQUALIFIED IN VOTE REVIEW**

Seventy-nine signatures remain on a petition of an original 135 seeking a Charter vote to test the employment status of any Cameron police chief, according to City Secretary Buddy Fuller.

He reported to City Councilmen Tuesday night that the percentage left was not enough to meet the 10 percent Charter test of registered voters.

Fuller told The Herald that 1,213 qualified voters are registered in Milam County records, according to registration volumes furnished by the County.

In order that a Charter referendum be called, the City Charter requires that 10 percent of the qualified voters petition the City.

The petition seeking the Charter vote had 136 names on four lists submitted by former Police Chief Frank Chapman, fired by the City Council in January. Chapman was one of five on a "Committee of Petitioners."

Fuller told The Herald that: —Twenty-four signers had since signed statements asking that their signatures be removed from the petition.

—Thirty of 59 affidavits were returned swearing those receiving them were registered voters, mostly "overs", meaning people over 65 who need not register to vote in Texas. The other 29 signatures were removed because they were not listed in County registration rolls or did not return the affidavit noting their eligibility.

—Two names were removed because they had been signed by persons other than themselves (their spouses) whose signatures remained valid.

—Two other signatures were disqualified for illegibility, leaving a balance of 79 on the petition.

Fuller said preliminary work is underway by City Works Supt. J. B. Earle and planning engineers on profiles of streets proposed for paving this summer.

No starting date has been announced for the 90 to 100-block program.

**MODERN ART? NO!** It is the landing runway at Cameron Airpark, to say the least, after dark. Those are runway landing lights blending into the north and

that is the windsock at right showing wind direction. It appears this way to any plane taking off from south to north.

Mr. and Mrs. Harry L. Rice of Houston announce the engagement of their daughter, Joan Ardeth, to Lt. Allen E. Dodson, Jr., son of Mr. and Mrs. Allen Dodson of Cameron. A summer wedding is planned.

## SW Bell Replaces

48 Coin Telephones

With Pre-Pay Model

All coin telephones in Cameron were replaced Saturday to provide improved service for Cameron telephone users, according to C. L. Carson, manager for Southwestern Bell Telephone Company.

The new pre-pay coin telephones replace the post-pay instruments which had previously been in service, Carson said.

With the new coin phones, a customer simply lifts the receiver, deposits his money, listens for the dial tone and dials the called telephone number. If the called number is "busy" or there is no answer, the caller's money is returned.

Previously, with the old post-pay telephones, the caller would dial the called number and deposit his money after the connection was made.

Carson said the new coin phones give the caller complete control, thus providing better service. In addition, the conversation can begin the instant the caller party lifts their receiver.

Carson said a crew of telephone installers from Taylor Temple, Rockdale and Cameron installed the 48 new coin phones. He said the conversion also required equipment modification in the Cameron and Temple telephone company central offices. Additional telephone lines were also installed between Cameron and Temple.

## Mail, Mail On 108th . . . .

The ol' Herald could blow its horn about an 108th anniversary or expound on the complex trials of producing a weekly in an economy that goes up, up, up . . . .

But "chance favors the prepared mind", not the blowhard.

May we point out this morning's mail to The Herald, the datelines at least: Chicago on history, New Orleans on the McCullin Award winner, Houston (and the metro Houston Chronicle at that) on former Milamites in Harris County, Houston on a subscription renewal, and finally Cameron on fire demonstration coverage. (See Letters, this page).

What must one weekly say when readership covers that span? Dear Reader, it humbles you. We can stack mail, at this rate, with any progressive news-

paper in Texas.

It is because thousands upon thousands, year in, year out, find something, even fault, in this of institution, just as we always find something to say, even honest criticism once in a while.

We prize such response more than all the awards people here have earned, and they have been meaningful when not numerous. We think putting out a newspaper is more important than entering contests.

So to people who like to read and even like to think a little, we extend our appreciation for a 108th anniversary, trusting they will renew, shop our advertisers and tell others to read us on a subscribed basis.

That's what a newspaper is for.

## Red Bread, Red Bullets . . . .

Vietnam Premier Nguyen Ky has rapped the critics who keep screaming: "Stop the bombing, stop the bombing!"

His answer, given at the Guam meeting with President Johnson, was: "Stop the infiltration. Stop all these things."

He was apparently addressing Sen. Robert Kennedy (D-N.Y.) and the liberal Democrats who think cessation of bombing several times while infiltration continues to the south is not enough.

Senator Kennedy's position is as political as it is theoretical. He is offering an alternative to White House policy, without White House access to the facts.

Ky is a military man whose career is fighting. But he also is head of a

South Vietnamese government which now has an elected parliament which has produced a Constitution.

President Johnson nor President Kennedy nor even President Eisenhower committed us to Southeast Asia. A victory in Europe and Asia in World War II put us there and in theatres throughout the world. Conditions required contending with the Communist monolith.

So Ky has a right to rap those who say "this war is immoral." What war is moral?

It is not just for South Vietnam. It is for Southeast Asia, the bread basket of that half of a hungry world. And if they eat Red bread, we'll ultimately eat Red bullets.

IT CAN HAPPEN HERE

# Liquor By Drink Hearing Starts

By Vern Sanford

AUSTIN — First big public debate over the Legislature's spotlight issue -- sale of liquor by the drink -- was scheduled this week.

House Revenue and Taxation Committee set Tuesday afternoon hearing on the proposal to legalize mixed drink sales under five-cent-a-shot-tax, stiff retailers' fees and strict regulation.

One of this session's biggest crowds was on hand for the House Committee session. Dry forces were lined up in depth for opposition testimony. Citizens Committee for Tourism and the Regulated Sale of Mixed Drinks announced formation of a key support group-an advisory board of 37.

Liquor legislation already has been subject of these actions:

—House passed a bill setting 10 a.m.-9 p.m. hours (instead of present 9 a.m.-10 p.m.) for liquor package stores and ordering the stores to close Christmas but permitting them to remain open on primary and general election days.

—Representatives killed the bill to permit private clubs in areas voted "wet" for any purpose (beer, wine or whiskey sales) to operate under the "pool" instead of the old "locker" system by which each member must replenish his own supply.

—Rep. J. M. Simpson of Amarillo introduced a bill to put in all the strong enforcement measures advocated in the liquor-by-the-drink bill plus a \$5,000 annual tax on private clubs, but not to legalize "liquor by the jugger." It's being called the "jigger without the liquor" bill.

REDISTRICTING STUDY -- All state representatives and some of their constituents will be called on for advice as to how to draw new federal court-directed state House and congressional district boundaries.

Rep. Gus Mutscher of Brenham, chairman of House District Committee, said sub-committee will conduct an intensive four-week study in an effort to produce bills acceptable to the lawmakers which also meet the court's one-man-one-vote yardstick.

Two principal congressional apportionments heard by the Committee were offered by Republicans and liberal Democrats at its first hearing. GOP-backed measure would pit only one pair of incumbent congressmen against each other -- Reps. Graham Purcell of Wichita Falls and Omar Bursleson of Anson.

Bill backed by Reps. Jake Johnson and R. L. Vale of San Antonio would throw Cong. Abraham Kazen of Laredo into the same Rio Grande Valley District with Cong. Eligio de la Garza of Mission; and Cong. John Dowdy of Athens into the district with Cong. Olin Teague of College Station.

TAX ISSUE NEAR SHOWDOWN Optional one-per-cent city sales tax measure was tentatively passed by the Senate last week after weathering filibuster attack. It is expected to pass after one more filibuster this week.

Proposed tax package picked up more opposition in House Committee on Revenue and Taxation hearing. Opponents of the penny boost in gasoline tax, which would channel more funds into the farm-to-market project, said the raise should be accompanied by a ceiling on FM road building and a proportional raise in diesel fuel used by trucks.

Committee sent to sub-committee the section of the tax bill by Rep. Ben Atwell of Dallas to stop the automatic \$15,000,000-per-year appropriation to FM roads.

Good Roads Association insists that FM outlays should be held to about \$70,000,000 a year.

Meanwhile, a bill to transfer all the funds now being given for new FM roads into projects to improve city streets was introduced.

In other action on the tax front, House overwhelmingly passed a resolution calling on Congress to begin steps toward constitutional change to rebate five percent of federal income taxes collected to states. Minimum of two-thirds of states will have to join in request and four-fifths must ratify any constitutional change.

TAX CUT? -- Sen. Wayne Connally of Floresville and Reps. James E. Nugent of Kerrville and Ralph Wayne of Plainview are backing a proposed constitutional amendment to do away with the state property tax, thus leaving it for use by the cities, counties and school districts.

Since bonds have been issued by the colleges for buildings, to be retired out of a part of the property tax, they propose to make it gradually effective, with the final lifting of the state property tax coming in 1978, when present college bonds are paid out.

VETS LAND REVIVAL -- Changes of a state constitutional amendment to revive the veterans' land program appear favorable. House passed the resolution and sent it to the Senate.

Only four representatives voted against re-submission of an additional \$200,000,000 in bonds, with eligibility for long-term, low-interest land purchase loans broadened to include Vietnam veterans.

WATER RIGHTS -- A bill by Sen. George Parkhouse for adjudication of water rights has passed the Senate and is being considered by the House Conservation and Reclamation Committee.

As things stand now, rights to use more river water than actually exists are claimed by Texans. Some have used some. Some have not.

Parkhouse's bill would set up a procedure for those who claim water rights to file their claims. Hearings will be held in each river basin. Then the Texas Water Rights Commission will decide who

## OLD PHILOSOPHER

Sage Sees Bafflement By All The Talk About Daylight Saving Time

Dear editor:

There are times when I'm convinced I don't know anything at all about people.

For the last week or so I've been reading in every newspaper that turns up out here on this Johnson grass farm about the big hassle over daylight saving time.

As I understand it, Congress has passed a law installing daylight saving time all over the country and the only way a state can escape is to pass a special law exempting itself.

And last night when I saw a special television report on the situation was when I decided I don't know anything about people.

One man from a city said daylight saving time would give him an extra hour to play golf in the afternoons and he sure wanted

that. A farmer said it would throw him and his cows and his milking and feeding schedule off and he was violently opposed to the change. A barber said he goes to bed at 9 every night and the thing would cause him to go to bed actually at 8 with the sun maybe still shining.

I don't understand any of this. There has been no Congress ever assembled that can tell me when to go to bed and when to get up, and there never will be. And while I don't play golf or mumbletypeg, I've never seen the day when I couldn't fish an hour longer if that's what I had in mind.

I go to bed when I'm sleepy and I get up when I wake up, and what difference could it possibly make to me what time Congress says it is? Any man who has to

look at a clock to tell whether he's sleepy or not, probably needs a Congress to legislate his bedtime. Any man who has to appeal to Congress to give him an extra hour of golf, is a man I'm not familiar with.

And as for cows, it'd surprise you how many cows don't even know Congress exists.

There are times when I suspect the reason there are so many laws is that people want to be told.

Personally, I don't care whether Congress votes to turn the clocks backwards or forwards, or whether it votes to make every day in the week Saturday or summer to overlap winter. My clock hasn't kept correct time in years anyway, and I went six months once without turning the page on my calendar.

As I see it, the sun comes up in the morning and goes down in the evening in compliance with a law that got here before Congress did.

Yours faithfully,  
J. A.

Friends -

I was happy, but not surprised, to see in The Herald that the chosen citizen for the year was everybody's "Miss Bess" - an honor richly deserved. I have known "Miss Bess" all of her life. Hers has been a life of service.

I think a few verses in Proverbs, Chapter 31 fittingly describe her: "Who can find a virtuous woman? For her price is far above rubies."

She seeketh wool, and flax, and worketh willingly with her hands. She stretcheth out her hand to the poor; yea, she reacheth forth her hands to the needy.

She openeth her mouth with wisdom; and in her tongue is the law of kindness.

She looketh well to the ways of her household, and eateth not the bread of idleness.

Favor is deceitful, and beauty is vain; but a woman that feareth the Lord, she shall be praised.

Give her of the fruit of her hands; and let her own works praise her in the gates."

Respectfully,  
Mrs. Don L. Avriett

really is entitled to the water.

Those who don't like the decision will have their day in court automatically, for trial under regular procedures.

SULPHUR -- West Texas' sulphur mining claim mixup has been cleared by the Legislature.

Gov. John Connally signed into law a bill putting sulphur, lignite, coal and potash under the regular leasing laws like oil and gas, which will give the state school fund 60 percent of the bonus and royalty received from leasing, and 40 percent to the landowners.

Fast action came after the courts held that sulphur comes under an old mining claim law, that mining rights can be obtained for as little as \$10 an acre.

DRAFT QUOTA FIXED -- Texas' draft quota for May will be 885 men, according to Col. Morris S. Schwartz, Selective Service Director.

No quotas will be set for physical and mental pre-induction examination in April, continuing the examination halt started early this year due to limit on travel funds.

Schwartz said Texas has enough men already examined and acceptable to fill current quotas. Army quotas ranged as high as 2,700 a month last fall.

Dear Mr. Luecke:

In 1967, Joseph G. McCoy came to Abilene, Kansas, and promoted an extension of the Chisholm Trail from its ending at Wichita to the railroad at Abilene. He promoted through advertisements in Texas newspapers.

Since your newspaper was in existence at the time, having been established in 1960, it is quite possible that McCoy's advertisements were printed in your newspaper and that you might still have those issues in your files.

Could you send me a copy, via Xerox or some other method of reproduction, of the pages that ran the advertisement?

Also, would you have the issue dated September 5, 1967 in your files? If so, could you please send me a reproduction of the front page for that date?

Finally, I am particularly interested in the Chisholm Trail. Could you please send me reproductions of any stories about the Chisholm Trail which ran in the Herald?

If you will let me know the cost of these reproductions, I will remit the necessary amount as soon as possible.

Any assistance you are able to give me will be greatly appreciated.

Sincerely,  
Al Carter

Gentlemen:

A reader of our service-information column, WATCHMEN, has asked a question which I hope you will be able to help us answer.

Our reader has asked several questions about a "Milam County Day" in Houston. He has asked

when it will be, where it will be, etc. We have been unable to find anyone in Houston familiar with such an observance. Perhaps you are aware of this event and can supply information about it. If so, do you know who is sponsoring the event?

We will appreciate any information you can furnish along this line which will help us answer this reader's inquiry.

Thank you.

Sincerely yours,

## HOME GARDENS

Interest in home gardens in Texas is on the increase. Dr. John Larsen, Extension horticulturist, cites several reasons: namely, better taste and quality of vegetables produced at home but labor shortages in vegetable fields and the trend to mechanized harvesting are big factors, he adds. Machines work best on vegetables which are canned or frozen. Home gardens thus are coming back as a source of garden fresh vegetables.

## COUNTY AGENT'S NOTES

—By—

J. D. MOORE

By J. D. Moore

It is near time to spray peaches and plum trees. Proper timing of spray applications is essential to prevent insects and diseases from becoming established and causing extensive injury. The amount of spray required depends upon the size of the tree. Thorough coverage is necessary to obtain satisfactory control.

Timing - Peach and plum trees should be sprayed as soon as 75 percent of the blossoms have fallen. The purpose of the spray is to avoid worms in the fruit later on in the season. The trees should be sprayed at 7 to 10 day intervals until 5 applications have been made. A number of people will spray at irregular intervals and be disappointed when insects injure their fruit.

Materials to Use - The simple thing to do would be to buy a ready prepared peach and plum spray. If you have insecticides on hand use two tablespoons of Dieldrin, Toxaphene, Sevin or Malathion, plus three tablespoons of wettable sulphur to each gallon of water. One teaspoon of zinc sulphate per gallon will greatly improve foliage condition of the trees.

prove foliage condition of the trees.

A guide for controlling insects of fruit and nut trees, L-245, is available at the county agent's office.

WIREWORM - Damage to grain sorghum reported. One farmer in the Thorndale area reported that wireworms were damaging the grain sorghum as it sprouted and before it came up. Good control of these soil insects have been obtained at the McGregor Station by using Dieldrin or Lindane at the rate of 1 ounce and Heptachlor at 1 to 1 1/2 ounces of actual toxicant mixed in 100 pounds of seed. Use 2 ounces of actual Dieldrin or Lindane mixed with 100 pounds of grain sorghum seed. For example, if a 50 percent wettable powder of Dieldrin is used, 4 ounces of this would treat 100 pounds of grain sorghum seed.

## just what is freedom?

Throughout America's history, men have sacrificed life and property to establish and preserve freedom . . . including freedom to worship according to personal choice.

Freedom is the very core of the American system and, while this system is not perfect, it has worked better than any other the world has ever known. It recognizes man's natural desires to live as an individual being. It recognizes his ambitions to earn, save, own and enjoy to the fullest the fruits of his labor.

As we partake of the rights of freedom, we must be ever mindful of our responsibilities to help preserve freedom.

## Ag Development Bill Sponsored By Rep. Schiller

Rep. Milton Schiller is co-sponsor of House Bill 995 which will set up a Texas Agricultural Development Board as recommended earlier this month by Gov. John Connally. Other sponsors of the bill are Rep. Delvin L. Jones of Lubbock and Rep. James Nugent of Kerrville.

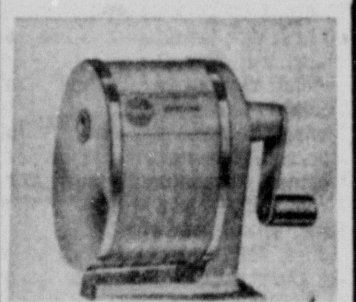

Rep. Schiller said in his weekly newsletter, "News and Views from Austin", that the bill is an outgrowth of his serving on the special interim Committee on Agriculture in 1966.

"The purpose of the bill will be to provide leadership for the development of the agricultural economy by analyzing its weaknesses and mobilizing the state's total resources," Schiller said. "This board will take an overall look at the agricultural situation and will study both the short term and long term needs of Texas agriculture."

Schiller also proposed a bill to regulate the sale, use and transportation of herbicides in more than 16-fluid-ounce containers. The bill would require that sales be recorded and reported to the State Department of Agriculture. It would also provide for hearings to determine if any damage has been done by chemicals.

Mrs. Jimmy Belt and Jennifer of Baytown visited her parents, Mr. and Mrs. Mac Westbrook over the weekend. Mrs. Westbrook accompanied her home for a visit. The Junior Class of the Milano High School will sponsor a Talent Show in the Milano High School gym March 31. All talent is welcome. Prizes will be given to the best talent.

## IRS Questions

Q - Does the gas tax table in the 1040 instructions cover business driving as well as pleasure driving?

A - No. This table should only be used for non-business driving. If you are entitled to a deduction for business driving, handle it separately. Check page 7 of the 1040 instructions for details.

Q - Are weekends counted in the waiting period for a sick pay exclusion?

A - Yes, they are counted unless the illness began on a weekend. In that case, the waiting period begins on the next work day.

Q - If you have more than one casualty loss during the year, can you combine the losses so that you only have to apply the \$100 limitation once?

A - No. The \$100 limitation applies to each separate casualty. Q - Is there any limit on what you can claim under the minimum standard deduction?

A - Yes, the limit is \$500 for married persons filing separately and \$1,000 for single persons or married couples filing jointly.

Q - Am I taxed on what I received on the sale of a house?

A - Profits made on the sale of a residence are taxable. However, if another home is purchased within a certain period that costs the same or more than the adjusted sales price of the one you sold, payment of the tax may be postponed. There are also special rules on home sales by those 65 or older.

Details on these provisions of the tax law are given in IRS Document No. 5017, "Selling Your Home." Send a post card to your District Director for a free copy. Q - Is a man entitled to claim something for child care expenses?

A - Yes, under certain circumstances men as well as women are entitled to use this provision of the law.

Q - I just moved. Should I notify you of my new address since I'm expecting a refund?

A - Yes, it will avoid delays in receiving your refund.

Pig in the Parlor

Is an ugly junk yard a nuisance? Is a noisy radio a nuisance? Is an odorous henhouse a nuisance? Consider this definition by the United States Supreme Court:

"A nuisance may be merely a right thing in the wrong place—like a pig in the parlor."

In other words, in complaining about an annoyance, it is not enough for you to point out how it looks, sounds, or smells. You must also show that it is not appropriate to the location.

For in the eyes of the law, when you choose your residence you are also choosing your environment. Choose the amenities and the excitement of the city, and you also choose its clutter and its dirt. They are a normal—even an essential—feature of urban living. As one judge put it:

"Without smoke, Pittsburgh would have remained a very pretty village."

Complaints about nuisances may be judged not only in terms of the general community or the particular neighborhood but even in terms of feet and inches. For example:

A home owner was denied an injunction against cooking odors blown from the house next door, when the court ascertained that there was a space almost 30 feet wide between the two buildings.

But an apartment dweller was granted relief from the cabbage and onion fumes aimed his way by the people directly across the hall.

Of course, to the person annoyed, the mere location of the annoyance is not the whole story. Not every individual has the same "threshold" of irritation. A smell or noise that vexes one neighbor may leave another—equally close to the source—totally unconcerned.

But as a practical matter, the law must decide according to average, not individual, tastes and sensibilities. Thus, a court refused to interfere with blasting noises which were irksome only to an especially nervous woman in the neighborhood.

Even if it tried, the law could not please everybody. Inevitably it would run afoul of those people who, in one court's words, "consider all noises offensive except those they make themselves."

## Schiller To Oppose Branch Banking Bill

Rep. Milton Schiller said this week that he would oppose branch banking as proposed by Gov. John Connally. Schiller said although it is bracketed for counties over 100,000, he felt it might be a "foot in the door for expansion into the small towns and rural areas."

He said local bankers knew the requirements of people in their areas and their abilities. "Branch banking would deny the personal touch that we now have with our local bankers and would be a detriment to the State as a whole," he added.

## It Is Not A Pretty PICTURE

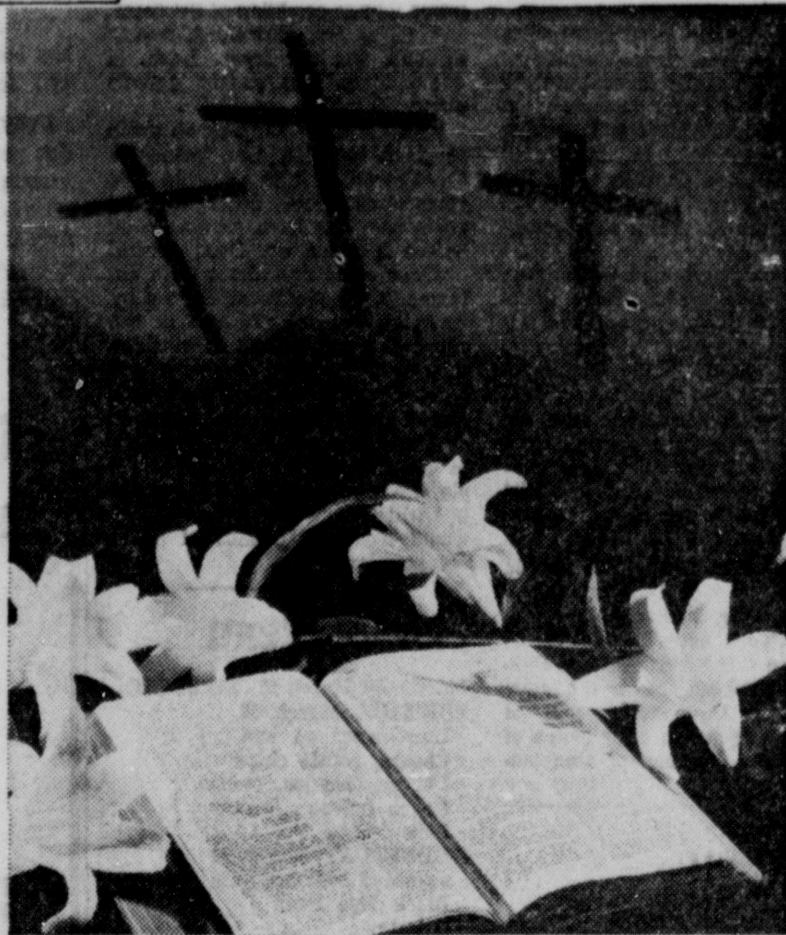

The crosses in the shadows were real. Three hung there and died in agony... two for their own wrong-doing... one for yours.

That chapter to which the Book lies open — it tells of the scandal... the indignity... the injustice—and the pain. The lilies?... symbols of what men call Easter Day! When the women found the tomb empty... and were afraid to believe He was risen...

IT is not a pretty picture. IT is the stark reminder of man's distrust of God... and God's love of man.

And you'll let nothing keep you from worshipping your Lord when you stop thinking of IT as a pretty picture. IT happened.

For you — IT happened.

### THE CHURCH FOR ALL ...

... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## Diplomatic Pouch

WASHINGTON D. C. The following letters were recently answered by the Department of State.

A question has arisen in our family in regard to "nationality." The question being, when asked what your nationality is, do you reply that you are an American; or do you say you are Italian or Irish or English, etc., because your ancestors may have been born and raised in one of the countries before immigrating to the United States of America. I say we people who are born and brought up in the United States of America are "Americans."

Schenectady, N. Y.

Dear Mrs. A.:

The name of our country is the United States of America. The short form of our name is America or United States. Certain countries also use "United States" as part of their official name; for example, the United States of Brazil and the United Mexican States. However, no other country uses "America" in its name. We and the other countries named are located on the continents of North and South America, which are geographical terms and have nothing to do with the name of the individual countries. "America" and "American" as used by us, are national terms, not geographic ones.

While the official name of our country is United States of America, it has long been common and accepted practice to designate our posts abroad as "American Embassy," "American Consulate," etc., and our officials as "American Ambassadors," "American Consuls," etc. Similarly, the Embassy of the United States of Brazil at Washington is known as the "Brazilian Embassy," and the Embassy of the United Mexican States as the "Embassy of Mexico."

George Washington, in his Farewell Address, said: "The name of American, which belongs to you in your national capacity, must always exalt the just pride of patriotism more than any appellation derived from local discrimination."

I have some stamps in my collection that seem to be Communist Chinese. I bought them with some other Chinese stamps, and at the time I did not know they were from Red China or that it was illegal to possess her stamps. I learned both about two weeks ago when looking in my catalog. I purchased the stamps from an American firm.

R. M. Camas, Washington

Dear Mr. M.:

The importation of stamps as well as all other materials from Communist China into the United States requires formal approval in the form of a license issued by the United States Treasury. Since you acquired the stamps from a firm inside the United States, we would assume that you acquired them legally.

I would like to obtain "Foreign Relations of the United States," published by the Historical Office of the Department of State.

B. D. H. Lincoln, Neb.

Dear Mr. H.:

Enclosed is a copy of "Major Publications of the Department of State: An Annotated Bibliography" which lists the most recent volumes in the series "Foreign Relations of the United States," together with the price of each. Requests for the publications listed in the bibliography may be addressed to the Superintendent of Documents, Government Printing Office, Washington, D. C.

Do you have an inquiry?
